

Beau Jardin Club Views Insect Threat

The Beau Jardin Gardena club met at the home of Mrs. Leo Hayes, 22425 Warmside avenue recently.

Guest speaker for the meeting was Harley Yunt from the Organic Research department of Swift and company. He showed a movie on insects and their control, and afterwards answered questions from the group.

Refreshments were served,

and decorations were carried out in a Halloween theme.

Door prizes were won by Mesdames George Smith, Robert Hill, and Phillip Rice.

Others present at the meeting were Mesdames Kenneth Moe, William Cressy, L. D. Burt, John Blair, Albert Yackle, William Adkins, and Myron Langwell.

The guest speaker for the next meeting will be Mrs. Flynn C. Sturges, from the South Bay

Garden club, who will speak on "Holiday Arrangements."

The next meeting will be at the home of Mrs. Phillip Rice, 22515 Warmside avenue, on November 9.

The club gave a Halloween party at the home of Mrs. Kenneth Moe, 22529 Warmside avenue on Saturday night, October 29.

It was a masquerade party for members and their husbands.

SAY 'CHEESE' PLEASE . . .

Cheese Festival to Feature Mammoth 6000-lb. Cheddar Homecoming Dance Set

When the Mayfair markets in California stage their annual Cheese Festival, they really go all-out to overwhelm the customers with quality and quantity—and in 1955 the markets will set new records as they display one tremendous 6000-pound Mammoth Cheddar Cheese, five others weighing 2000 pounds each and ten weighing 500 pounds each.

Production of Mammoth Cheddars requires not only the skill which comes of many years of producing prize winning cheese but also the finest equipment and facilities which modern science has produced.

Steve Studzinski, his factory and his helpers at Denmark, Wisconsin, fulfill all the requirements.

The annual Torrance high school Homecoming Dance will be held at the civic auditorium following the football game, Thursday, November 10.

Graduates of the classes from 1951 through 1955 will be admitted upon presentation of their invitation and payment of a nominal fee at the door.

Alumni who graduated prior to 1951 may obtain tickets at the student government room at Torrance high school.

Juniors and seniors will purchase their tickets on campus.

Handprinted Cotton Circular Skirts PRICED FOR CLEARANCE

Half \$1.49 Full \$2.19  
Circles 1 ea. Circles 2 ea.

You'll want a few for your own wardrobe — Teenagers love them for school (they're washable), and as gifts, they are different. (Takes a jiffy to sew—printed instructions furnished). Also, plain matching yardage at 79 cents per yard.

SECONDS DEPARTMENT California Hand Prints

1559 Pacific Coast Hwy., Hermosa Beach (Just No. of Pier Ave.) Christmas cloths are now on display — designed especially for the holiday season. Mats and naps, too, with Christmas holly bright and cheerful against a white ground.

Speech Class Still Open For Adults Promoted

David W. Daniels, 20, whose wife, Barbara, lives at 25356 Woodward, Lomita, recently was promoted to specialist third class at the Fitzsimon army hospital in Denver.

He is a member of the 9953rd technical service unit.

Class members include business men desiring to better their positions or become more successful in their present job, club and organization officers whose duties require them to be able to speak to groups, and persons wishing to increase their self-confidence by learning to speak correctly and assuredly in large or small groups.

Enrollments are still being taken in this class which is taught by Louis Bereskin, speech and drama teacher at North high school.

Further details on this and other adult evening school classes may be had by calling FA. 8-2272.

"The mark of a self-assured confident man or woman is the ability to speak before a group with poise," said Louis Bereskin, teacher of speech.

"To express one's thoughts clearly and forcefully requires training and practice. But, as there are tricks to every trade, the art of public speaking can be acquired by applying certain basic rules known and practiced by all outstanding speakers," he said.

Many local residents are now learning the techniques and acquiring the practice they need to become good speakers at Torrance evening high school, 2200 West Carson st.

The Adult School public speaking class, which meets from 7 to 9:30 p.m. on Mondays, is open to persons who wish to improve their speaking voices and learn to communi-

cate their thoughts to others.

Class members include business men desiring to better their positions or become more successful in their present job, club and organization officers whose duties require them to be able to speak to groups, and persons wishing to increase their self-confidence by learning to speak correctly and assuredly in large or small groups.

Enrollments are still being taken in this class which is taught by Louis Bereskin, speech and drama teacher at North high school.

All of these Mammoths are the handiwork of the master Mammoth creator, Steve Studzinski, Denmark, Wis., by arrangement with Mayfair, and the Kraft Foods company, who have cooperated in years past to make the fall event a big success but never on quite the scale attempted in 1955.

Besides the Mammoth Cheddars, of course, a variety of all the world's popular and exotic cheese will be featured by Mayfair markets, but the truly stupendous job is manufacturing the Mammoths. For instance, for every 100 pounds of cheese manufactured, 1,100 pounds of milk obtained from 57 cows are required.

It takes the labor of four farmers tending 400 acres, spending 35 man-hours getting the milk ready for at least one hauler to take the milk to the cheese factory where four more man-hours are required to manufacture, store, stencil and ship the cheese. In Mammoths alone, Mayfair will display 210 times 100 pounds.

How big is the largest, the 6000-pounder? Well, it stands 48 inches high and 64 inches in diameter. While still in its tub, or hoop, it stands 52 inches high and 70 inches in diameter. Its manufacture required 3,400 cows to produce 66,000 pounds of milk. And the cows needed the production of 23,000 acres to produce that much milk for 264 farmers.
